Army Enterprise Transformation Governance responsibilities include the following activities:

1. Leading business transformation.
2. Establishing and maintaining a governance process to ensure representation of major commands, HQDA staff, and other components and agencies, as appropriate.
3. Performing system reviews and approving initiative funding as part of portfolio management.
4. Developing the architecture.
5. Enforcing compliance with the Business Enterprise Architecture and transition plan.
6. Guiding execution activities.
7. Representing the Army Domain on cross-Domain and cross-Service issues.
